Professional Edition - Software for Windows or Mac

Learn How to Build Retirement Plans for Clients Quickly & Easily in 30 Minutes or Less GUARANTEED!

Are you tired of using complicated, hard-to-use, headache creating software? If you are a financial advisor who meets with clients and prospects about their retirement, you probably don't have time to spend an hour slogging through a fact finder before catching the client's attention. And frankly your clients don't have time for that either. Real-time instantaneous colorful conversations your clients will love.

In less than 15 minutes (yes we said that right) you can punch in basic data and have this program generating meaningful and accurate retirement income projections. Even more important, the easy-to-read charts display in "red" any projected shortfall. You can easily play "what if" with all of the data inputs to show how changes will affect their retirement picture. Works with all types of plans, investments and retirement income sources. Your clients will love it!

"Keep It Simple" Retirement Planning even if you are not that good with a computer and don't know much about financial planning. Works for everyone and clients love it!
